**Chris Tyler – IBM  
Embedded Solutions  
Evangelist - Blockchain,  
IoT and Analytics**

Chris is considered a trusted advisor to IBM partners and has maintained many of his partner relationships for more than 10 years spanning a 25+ year career focused on data and analytics. He has presented around the world for IBM on technologies such as Blockchain, internet of things (IoT) Ai and Machine learning. He is responsible for working with IBM's embedded solutions partners with helping them leverage their Analytics portfolio. Chris has presented at numerous Blockchain conferences and has been able to help IBM customers get started with their Blockchain initiatives.

  
**J.W. Taylor - Owner,  
Taylor & Assoc.,  
Attorneys At Law, P.L.**

J.W. Taylor is the founding member of the boutique transportation and logistics law firm of Taylor and Associates. Formed in 2011, the firm has offices on the inland port of Winter Haven, Florida, as well as the coastal port of Miami. Mr. Taylor uses his industry experience to represent transportation and logistics companies in all legal aspects of their business, including property claims and injury litigation and ADR, cargo claims, and contract disputes. In addition, Mr. Taylor represents these clients in corporate restructuring, insurance design, equipment financing, and risk management matters. This practice focuses on placing client companies in compliance with federal and state regulations and statutes to meet underwriting requirements, as well as reducing risk exposure across the supply chain.

  
**John P Riley III –  
Founder & CEO CNC  
Blockchain**

John Riley III is the CEO and Founder of C-N-C Blockchain Advisory company. He has over 17 years' experience in the software applications space working for companies like Oracle and SAP. He has primarily worked in the consulting services sector assisting organizations with their software implementations, business process changes, digital transformation initiatives, and end-user adoption training. He has spoken at various Blockchain conferences and events, and was recognized in Bitcoin Magazine in 2017 for his work with Blockchain Meet-Up groups. He's also a U.S. Marine war veteran.
